ANNEX 5

IBSSA Education and Qualification department Report of the year

The E & Q Department was maybe the most productive department during the last year of 2000. From the very promising starting point at May 1999 in Geneva, we had our first open Congress of the Department, which brought the rules and structure of qualification and recognition with IBSSA.

We produced a very professional elite standard of qualifying with our Association.

IBSSA will publish the list of recognized Instructors and Master Teachers and only these people will be registered internationally and backed by IBSSA.

Please Gentlemen, remember our decisions from the Congress, that only the E & Q Department double stamped Blue Diplomas are valid.

All previous diplomas are counseled from May 1999.

The Department has five full right members:

Dr. Giacomo Spartaco Bertoletti (ITA)

Dr. Rony Kluger (ISR)

Mr. Silvere Salvisberg (SWI)

Mr. Miki Varga (HUN)

Mr. Peter Richter (SVK)

Only these members have official stamps of the Department and two of those stamps have to be placed on the Blue Diploma of IBSSA.

Please also remember that any recognition has to be companied with valid, up-to-date membership cards.

The Education & Qualification Department had several productive meetings during the year of 2000.

The Department runs several very high standard international and national courses in the Israeli College for Security & Investigation; Italy also runs several IBSSA courses and Hungary was very active during the past year.

Looking forward to a very successful year of 2001.

Dr. Rony Kluger
General Secretary
