In Abu-Dhabi the World Family Forum was founded, etc.

These matters were also items on the agenda of the XII. Congress of IBSSA in Belgrade – Serbia.

*Then Prof. Popper called upon the presenters – one after the other – to make their speeches:*

**H.E. Prince Sir José M. COSMELLI** (Portugal) – Grand Master – Regent of the Sovereign Order of Saint John of Jerusalem, Knights of Malta, F.A.P.

**Dr. Eriks GRINBERGS** (Latvia) – in his speech emphasized the responsibility of parents. If the parents do not care for their children, then it can happen that those children may come under the influence of drug-distributors, and by this time it is too late to interpose!

The most convincing when children themselves are talking about how bad and evil is to take to cigarettes, and to drugs.

In Latvia the attempt of using new methods in upbringing and pedagogy is very successful.

He informed the participants about their plans how to defend students from drug abuse, and the way this centre intends to support and help the activities of other different organisations and experts.
