ALGERIA

Dear Presidents and Members,

It is so hard and painful to express one's sincere feelings and regrets toward the last events that have touched the USA. Such actions are not civilized people's products for this catastrophe has taken off life from thousands of innocents for the only cause that they are Americans.

IBSSA Algeria so touched by this event reacts in favour of peace and for a universal justice. Because of the tragic results of these terrorist attacks, we find a remedy for this injustice in constant fight against terrorism to put an end for such dramatic acts. These acts are results of some political, religious or even due to some personal convictions built on some false ideas about some religions or systems.

IBSSA Algeria thinks it is necessary to unite and to collaborate all together: associations, organisations, governments especially between communities from different religious believes. This is why IBSSA Algeria takes the initiative to put at the disposition of every one the possibility to cooperate with her in order to find at least some solutions or even explanations to what is threatening the peace of our planet .

As you may know, terrorism of nowadays is generally related to Islam. For this, and as we belong to the musulman-arabic community, we think that we can at least give some explanations, erase and correct

some false ideas about the true Islam. It is our long experience in the field of anti-terrorism that offers us the initiative to enter such an experience. We want you to know that the President of IBSSA Algeria is an ex-investigator in the Algerian police (domain of anti-terrorism) for long years. He was also threatened by the GIA (Armed Islamist Group in Algeria).

An experience that puts between our hands some answers to some questions such as those in relation with Islam and terrorism, for instance :

- Why is there an islamist terrorist?*
- How is a religious terrorism created?*
- Who are these terrorists?*
- What can we do to stop the emergence of terrorism?*
- And any other questions that you think are interesting.*

We hope that our future cooperation would be at least a moral remedy for every one who was touched by this uncivilized acts. IBSSA Algeria will put at the disposition of everyone her postal and electronic addresses in order to answer to all your questions and suggestions with a total franchise Therefore; in order to make it easy to begin such an experience, we ask that these questions and suggestions would not contain any scathes to any organisation, association or government. These questions can be asked and answered in English, French, Arabic and Italian. We want you to know that we can not answer anonymous messages.

We are waiting to receive your questions ,suggestions and critics on the following addresses:
